The Professional Line Marker

The Professional Line Marker ^

The perfect machine for professionally marking out multiple sports grounds. Light weight for ease of use, requiring only the liquid mix to be added to the huge 34lt container. Battery powered and simply operated by the flick of a switch.

Features: 12lt water tank, 34lt liquid tank, easy release locking lid, side or front mount for nozzle assembly, marking discs, handy tool box, instant cut off at the nozzle and puncture proof tyres.

The Mini Line Marker

The Mini Line Marker ^

The perfect choice for the smaller sports club with only one or two grounds. It offers fast, accurate and economical line marking, in a small, compact and manoeuvrable form.

The Mini Line Marker has a 18 litre tank that is specially moulded for its chassis and sprays off centre. It is very easy to use; operation is simply by the flick of a switch.

Battery charger included.

The Nifty Fifty Line Marker

The Nifty Fifty is the latest release in our range of line marking machines.

Designed to meet the requirements for marking out croquet courts - the perfect choice for any discipline where a 50mm line is required.

The Transfer Marker

The transfer wheel of this marker maintains a firm grip between the pick up wheel and the marker wheel for consistent and even pick-up of marking material.

There are four different width wheels - 75mm, 100mm, 120mm and 150mm providing you with a choice in line width depending on your requirements.

The simplicity of the Transfer Line Marker allows minimal distractions for the operator to successfully complete the task of line marking with ease.

The Bowls Marker

The Bowls marker is a machine suitable to create narrow lines as often needed on bowling greens.

The greatest advantage in using this system is the huge amount of time saved by not having to remark as often because the lines stay visible for weeks.

The Boom Sprayer

The Boom Sprayer >

Great for the application of herbicides, fungicides and fertilisers onto bowling greens, golf courses, lawn tennis courts, croquet lawns, football fields or just the average suburban lawn.

The Easy Marker

Similar to the Mini line marker, this machine is designed for those operators who do not want the hassle of mixing liquids and cleaning machines.

The sealed system allows for the specially made liquid Redispray, to remain in the machine (current trials have shown that liquid can be left for at least 6 months without any problems). This means that no regular cleaning is required. Simply remove the empty bucket and replace it with new bucket of liquid.

The Spray Way Marker

Designed for those small jobs, this back to basic but super versatile machine enables the user to line mark or spray any number of products onto the turf to achieve professional results every time.

The Spray Way Marker is easy to use, easy to clean and inexpensive. Highly recommend for use on croquet lawns, golf courses and private tennis courts.

The Big Foot

No bells or whistles the name says it all.

Fitted with large wheels to offer even greater stability and movement, The Big Foot is packed with all the same features as the professional line marker.
