Duramark liquid

Duramark Liquid 15 Litre ^

A liquid suitable for more frequent applications, formulated specially to use through other application machines for economical and trouble free marking.

The improved properties of Duramark allow fast and easy application. With dilution rates as high as 1:4, Duramark has been proven to be a very cost effective product.

This quick drying liquid will create bright and durable lines even in poor weather conditions, reducing the marking out costs compared with traditional methods.

The Green Out liquid is used to cover (green out) other lines.

Duramark liquid colours: Base colours include white, black, red, blue, orange, green out, green and yellow.

Stadia 10 Litre

Stadia Liquid 10 Litre ^

A technologically advanced liquid concentrate for ultimate performance. The liquid mixes easily with water at flexible dilution rates (up to 1:8) to suit ground conditions and line requirements producing long lasting, rain resistant bright lines.

The Green Out liquid is used to cover (green out) other lines. Stadia liquid concentrates are environmentally safe and will not harm wildlife, trees or shrubs.

Stadia liquid colours: Base colours include white, black, red, red sienna, blue, green, green out and yellow are readily available. Other colours can be made to order.

Greenit Turf Colour Restorer

Greenit will not wash off, it is permanent when dry and has the ability to blend in with most grasses as the shade can be controlled by the amount applied.

Greenit Turf Colour Restorer 10 Litre ^

The simple and instant way to restore the natural green colour to all your important turf areas. No matter how carefully you look after your turf, during the dry summer months inevitable discolouration will occur. GREENIT will quickly restore a healthy natural colour to your turf!

It can be used to cover up bare patches on football pitches before an important match or television event.

It can be sprayed onto tennis courts & bowling greens for "finals day "or for year round colour. Is great for all around the golf club, greens, practice putting areas, tees, fairways and dry soilless areas around bunkers and ditches. It will prove to be particularly useful on sloping grass areas where water drains away before penetrating the soil.

It sprays on using a knapsack or walkover sprayer for a green that will last up to eight weeks. It can also be applied by Boom Sprayer.

Simplicity Line Marking Liquid

Simplicity Line Marking Liquid ^ Available in a box of 6 x 1 litre containers

Simplicity is a simple, fast and cost-effective alternative to regular Line Marking Liquid. It is the simplest and most environmentally friendly liquid concentrate available today!

Simplicity is as simple as mixing milk in coffee or tea, saves space as you are not transporting water and can be used in any marking machine.

Containers are recyclable or can be easily washed out and used for storage.

Simplicity provides the flexibility to create an outstanding finish for any event from grand finals to the junior football field - there is no need to carry any other product.

A field can be remarked for under \$6.00!
At a dilution of 1:10, Simplicity marks at equal or better brightness than other products that are diluted at 1:3.

Supa Stadia

< Supa Stadia Liquid 10 Litre

Supa Stadia is the 'elite' liquid product. It is a stronger concentrate than the Stadia and will produce a brighter and whiter line. The Supa Stadia has proven to be economical, as less is required to mark a 'white line'. This product, as with all our products, is environmentally safe, can be used through all types of marking machines and is rain resistant once dry.

Colours: White only.

Stadia ER Patented Removal System

Stadia ER Liquid 15 Litre >

Stadia ER Colour is a liquid that is erasable. It has been specifically designed to apply a line or logo (by either transfer marker, airless sprayer, paint pad or broom) for one discipline and then be removed for another.

Stadia ER will not erase in the rain, provides a nice bright line and requires the patented application of the remover solution before it can be erased. Environmentally safe, Stadia ER is the answer for any multi use venue. It will save time and money and allows the grass to breathe and grow. It is available in a range of colours.

Malt Extract Liquid

Malt Extract Liquid 15 Litre >

A special product for stadiums and race tracks, Malt Extract liquid is beneficial for the control of plant nematodes in sandy soil and enhances a greener growth. It can also be used in conjunction with liquid fertilizer programs.

Malt Extract 50% is packaged in 15 LT drums, and this product (Pre-Diluted 1:1) is ready for use. Feed your entire turf surface with a mix of 120 litres of Malt Extract 50% and 600 litres of water applied through a sprayer. When Logo Marking, we recommend a diluted amount of Malt Extract be added to ER Products, up to a dilution ratio of 50:50, to assist adhesion to and removal from the turf.

Redispray

< Redispray Liquid 18 Litre

Redispray is based on very special technology. This product is a "Ready to Use" liquid which is specifically formulated not to have any settlement – providing excellence and longevity with the highest coverage and brightness when compared to any other line marking product. Can be used with any spray marker but when used with the Easy Marker it can be left in the machine, eliminating the need for cleaning.

Redispray Liquid Colours: White, Black, Yellow, Blue & Red.
